## Label Presenter System

**Labels for Life.**

## Pick & Place Label Presenter

IDENTCO chose to offer this specific pick & place label presenter because of its ease of use, reliability, and outstanding German engineering. The designers of this system are actually EMS providers who did not like the other presenters available on the market, so they designed their own. We are very excited to have the opportunity to bring this technology to our PCB label customers in the North American market.

- Easy Set-up and Operation
- Easy Label Loading and Change-Over
- Excellent Cost-Performance Ratio
- Extremely Durable Construction
- Compact Design
- High-Speed Presenting of IDENTCO PPL Labels (Results with other labels may vary)
- Signal Interface for Communication with Pick & Place System

### Specifications:

- Minimum label size: 3 mm x 4 mm (.118 in x .157 in)
- Maximum label size: 23 mm x 23 mm (.905 in x .905 in)
- Maximum liner width: 25 mm (.905 in)
- Label conveying speed: 10-120 mm/s
- Label positioning frequency: up to 6/second (depending on label size)

### Signal Interface

- Label feed request
- Label ready
- Error

### Compatibility

Machine Adapters are available for most pick & place systems. Please contact us for the right machine adapter for your system.
