IDENTCO®
Labels for Life.

STOCK DIE-CUT MASKING PRODUCTS
For The Industrial Sector

www.identco.com

IDENTCO partners with industrial, transportation, and electronics customers across the globe to develop high performance labeling solutions that outlast the products they identify. We have a singular focus: labeling solutions. Adopting this singular focus has allowed us to develop and refine our processes over the past 30 years, and become leaders in collaborative, technology driven solutions.

IDENTCO TTP™ solutions offer optimal labels, ribbons, and equipment for your company's on-demand identification needs.

DCP™ – DIE CUT PRODUCTS

- Protective Masks & Lenses
- Adhesives & Bonding
- Insulators
- Custom Engineered Products

CPP™ – CUSTOM PRINTED PRODUCTS

- Brand Recognition Labels
- Graphic Overlays
- **UL / CSA** Nameplates
- Information & Instructional Labels
- Security & Anti-Counterfeiting Labels

TTP™ – THERMAL TRANSFER PRODUCTS

- Stock Blank Labels
- Custom Blank and Pre-printed Labels
- Labels for Automatic Placement Equipment
- Thermal Transfer Ribbons
- Thermal Transfer Printers & Label Software
- Scanners, Rewinders, Dispensers, & SMT Label Feeders

WMP™ – WIRE MARKING PRODUCTS

- Heat Shrink Sleeves (formatted and continuous)
- Self-laminating Cable Identification Labels
- Print-protected Labels
- Flag Wire Markers

Aluminum Discs

Aluminum Disks with permanent Adhesive

Product Description:
AT aluminum foil discs are provided in a range of sizes. Discs are provided on a liner, which is wound on a core. These discs are moisture and chemical resistant, thermally conductive, heat and light reflective, flame resistant, outdoor weatherable, and can help dampen vibration.

Available Materials:
- **3M439L** - 2.0 mil aluminum foil with 1.0 mil permanent bonding acrylic adhesive (Request a technical data sheet for more information).
- **3M433L** - 2.0 mil high temperature aluminum foil with 1.5 mil high temperature silicone adhesive (Request a technical data sheet for more information).
- **3M1170** - 2.0 mil aluminum foil with 1.2 mil electrically conductive acrylic adhesive (Request a technical data sheet for more information).

Recommended for:
Permanent sealing, holding, splicing, or masking applications requiring the protection of aluminum foil. 3M1170 has the added benefit of providing excellent electrical conductivity from the application substrate, common uses include grounding and EMI shielding in equipment, components, and shielded rooms.

Temperature Range:
Maximum Temperature: 600°F (316°C) (depending on the product and application).

Available:
Aluminum foil masks are available as a continuous roll or die cut.

Custom Options:
All stock aluminum masking products are also available in custom shapes and sizes and are supplied in auto apply or hand apply configurations. Please call or email IDENTCO for a quote for your custom requirements. • (800) 533-2559 • sales@identco.com • www.identco.com

Polyester Masking
Polyester Masking Products

Product Description:
Polyester masking discs are manufactured from a polyester film tape used to mask off areas that do not require coating. Polyester masking discs have a silicone adhesive with excellent release properties that will not leave any adhesive residue. Discs are provided on a liner, which is wound on a core.

Available Materials:
• **3M8992L** - 2.0 mil green polyester film with 1.3 mil removable silicone adhesive.

• **PT628FR** - 2.0 mil flame retardant white polyester with a 1.0 mil high temperature acrylic adhesive.

Recommended for:
Masking for powdercoat painting. PT628FR is ideal for die cut parts used in electrical, electronics, and automotive industries where the prevention of flame propagation is required.
Applications include:
- Electrical and thermal insulation between electrical & mechanical devices and components
- Thermal barrier for PCB's
- Circuit board insulation
- High temperature masking

Temperature Range:
Maximum Temperature: 400°F (204°C)
Custom Options:
All stock polyester masking products are also available in custom shapes and sizes and are supplied in auto apply or hand apply configurations. Please call or email IDENTCO for a quote for your custom requirements.

Vinyl Masking

Vinyl Masking Products

Product Description:

3M484L - is a 5.6 mil conformable and abrasion resistant vinyl tape with a 1.0 mil rubber based adhesive, used for masking various surfaces during electroplating and anodizing operations.

Available Materials:

• **3M484L** - 5.6 mil vinyl film with 1.1 mil removable rubber adhesive.

Recommended for:

Hard Anodizing, Soft Anodizing and electroplating.

Temperature Range:

Maximum Temperature: 170°F (77°C)

Custom Options:

All stock vinyl products are also available in custom shapes and sizes and are supplied in auto apply or hand apply configurations. Please call or email IDENTCO for a quote for your custom requirements.

Urethane Cushion
Urethane Cusion & Bumper Products

Product Description:

Urethane cushion and bumper products are cellular foam in construction and are flexible and high density in nature that maintain excellent resistance to compression sets, exhibit high resiliency, provide good vibration damping, and impact absorption. These benefits in combination with 3M adhesive systems offer superior bond to a wide range of application surfaces.

Available Materials:

• **PORON 2302423** - 6.2 mil black with 3M 467 2.0 mil permanent adhesive

Other grades of PORON products are available upon request.

Recommended for:

Recommended for applications that require long term high performance gasketing, sealing, and cushioning from friction and impact to reduce or eliminate noise. This material will not become brittle or crumble and is non-corrosive to metals.

Typical Applications

• Environmental seals • Protective cases • Spacers
• Water sealing • Motor mounts • EMI/RFI shielding
• Springs • Sound damping • Gap filling • Gaskets

Temperature Range:

Maximum Temperature: range of up to 194 °F (90 °C).

Custom Options:

All stock urethene cushion and bumper products are also available in custom shapes and sizes and are supplied in auto apply or hand apply configurations. Please call or email IDENTCO for a quote for your custom requirements.

Double Sided Adhesive
Double Sided Adhesive Products

Product Description (With Foam):

3M 4496B is a double coated polyethylene foam tape that combines a conformable closed cell foam with a high strength permanent acrylic adhesive that provides good initial tack and offers high ultimate adhesion to a wide variety of surfaces. This product is available in black or white. We offer the full range of the following products in this category:
• 4462W, 4462B, 4466W, 4466B, 4492G, 4492W, 4492B, 4496W and 4496B

Available Materials:

We offer the full range of the following products in this category:
• 4462W, 4462B, 4466W, 4466B, 4492G, 4492W, 4492B, 4496W and 4496B

Recommended for:

The foam construction makes these products ideal for many joining, mounting, gasketing, and sealing applications involving irregular surfaces.

Temperature Range:

Maximum Temperature: 120°F (49°C) to 158°F (70°C)

Product Description (Without Foam):

3M 467MP and 468MP with 200MP adhesive offers the following excellent performance characteristics: clarity, high temperature performance, and excellent shear strength (that minimizes edge lifting and slippage of parts). Finally, this adhesive family is provided with a variety of liner configurations to help ensure process flexibility.

Recommended for:

Long term bonding to metal and high surface energy plastics in the electronic, automotive, and industrial equipment markets.

Temperature Range:

Maximum Temperature: 400°F (204°C)

Custom Options:

All stock double sided adhesive products are also available in custom shapes and sizes. Please call or email IDENTCO for a quote for your custom requirements.

ASSUME QUALITY, EXPECT PERFECTION.

HIGHEST QUALITY GLOBAL PRODUCTION

With IDENTCO quality-control safeguards we are able to ensure consistent, accurate production globally. To achieve this, we use the same equipment, materials, inks, and procedures in all of our facilities. So no matter where we produce your labels, they look and perform the same every time.

All of our locations are able to meet the same branding, performance, and regulatory specifications. We provide excellent color-matching capabilities and accuracy, as well as a fully-equipped testing laboratory with superior quality control processes. It's just another way IDENTCO can ensure our customers consistent success.
